Tutorial –1

1. Learn basic concepts of HTML and JavaScript.

2. Create HTML page with a link to google search engine, a paragraph that is a description of a book, include the title of the book as well as its author as Headings. Author names and title should be underlined, adjectives should be italicized and bolded.

3. Write a JavaScript program to calculate multiplication and division of two numbers (input from user).

1st Number : 12

2nd Number: 10

[Multiply] [Divide]

The Result Is :
120
